

CPESN® Pharmacies and Local Network Leadership:

Good morning! Here is this week's **Sunday Update** on CPESN activities from the past week.

Network Development

Momentum with network growth continues to climb as we move through the summer. CPESN OHIO is experiencing a growth streak following a series of Ohio pharmacy focused webinars. We are working closely with CPESN California luminaries to organize a network push to attract high performing pharmacies as this newly launched network is seeking network adequacy.

As a reminder, networks with 40 or more participating pharmacies by August 1, 2018 will have the opportunity to appoint one individual to serve on the CPESN USA Board of Managers.

As we plan ahead for NCPA Annual Convention, network luminaries will be offered the opportunity to reserve up to a 2-hour session to meet with prospective pharmacies or hold network related information sessions. If your network is interested in hosting a CPESN information session at NCPA Annual Convention, please [email Ashley](#) and she will work with you to reserve meeting location and designated time. Requests for CPESN Network Information Sessions will now accepted now through August 3.

Payer Engagement

Payer Engagement

A Western network is engaging with a new payer on an opioid service that both monitors as well as helps treat opioid dependence.

A Northeast network was just awarded a behavioral health supports service.

A Midwest network is starting a Medicaid MCO engagement that would likely initiate enhanced services in Jan 2019.

A Southern network has started discussions with a large health system in a transitions of care program.

A Northeast network just started a new MCO engagement and is particularly interested in eCare plan data flows.
